Electronic Game Card Statewide Launch Set For May 16

After a successful test launch in eastern Iowa last fall, the Iowa Lottery will introduce the “Quarter Play” electronic game card statewide on May 16.

The game card made its world debut in October 2004 at about 130 retailers in the Cedar Rapids, Dubuque and Waterloo/Cedar Falls areas.

The fun goes on and on when you play the “Quarter Play” electronic game card! Each card, about the size of a driver’s license, is loaded with random plays. Three small LED screens on the front of the game card display the numbers in a particular play and show whether the play has won a prize. It’s called “Quarter Play” because each play (a total of 80 on each card) costs 25 cents. The cards sell for \$20.

Every card’s a guaranteed winner of \$3, \$5 or \$7, and you can win up to \$500! First, activate the card by removing the battery tag. To begin, press the “Play” button on the front of the card. The card will display that the player has 80 plays on the card. Press “Play” again to reveal a three-digit number. If any of

The Quarter Play electronic game card will debut May 16 statewide. See page 3 for specific odds information.

The prize includes payment of required state withholding taxes. Winners will be able to pick departing dates and times based on flight availability, and Allegiant will allow winners one year to complete their travel.

Use These Steps to Validate Quarter Play

On the Extrema:

1) Scratch off the latex on the back of the card where it says "Void if Removed." This will reveal the numbers needed for validation. See Figs. 1 and 2.

2) Choose "Cash" from the menu on the bottom of the main screen, then choose "Electronic Game Card" from the menu on the screen.

3) Pull open the door on the front of the SciScan 1500 reader. You'll see a red beam inside the SciScan. Turn the card sideways, bar code facing away from you, and pass it in front of the beam (See Fig. 3). If you have a SciScan 500, like the one pictured in Fig. 3, roll the wheel on the right-hand side of the SciScan until the beam is visible through the slit in the front of the box. Pass the game card in front of the beam.

4) Enter the security code (the three numbers in the box as shown in Fig. 2) on the pop-up screen when prompted.
